with (1) Squeegee

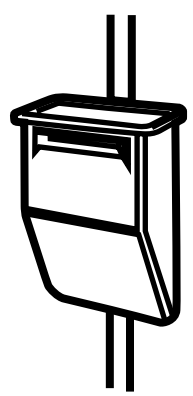

Double Bucket WSC  
with (2) Squeezes

Rectangular WSC  
with (1) Squeegee

Advantage WSC  
with (2) Squeezes

Squeegee Bucket

## Installation Instructions

1. To attach unit to island pole, mark a location approximately **31 inches\* from ground level**. Attach the bottom of the lower metal bracket at this position. See Illustration 1.\*\*

*\*This height is in consideration of the 48" front reach and the 54" side reach of ADA.*

*\*\*Squeegee Bucket requires only 1 metal bracket attached 31" from ground level.*

This unit is designed to secure to any island pole by screwing into pole with hardware provided.

2. Attach the top of the upper bracket exactly 11" from top of the bottom bracket.
3. Attach Windshield Service Center to mounted brackets as shown in Illustration 1.
4. To fill towel dispenser, place towels into towel tray and feed bottom towel through slot as shown in Illustration 2. Towel dispenser accommodates 1-ply or 2-ply folded paper towels.
5. Fill removable water bucket(s) with water or windshield cleaning solution. Removable bucket accommodates standard-size squeegee.

**Advantage WSC:** The towel dispenser is not included with this unit. Refer to the manual of the selected towel dispenser on how to attach unit and install towels.

**Squeegee Press:** To remove excess solution, press squeegee against squeegee press.
